Symposium on Simulation for Architecture and Urban Design
SimAUD CONFERENCE
The 10th annual Symposium on Simulation for Architecture and Urban Design offers a platform to unite researchers and practitioners in the fields of architecture, urban design, urban planning, building science, and data science. SimAUD 2019 will focus on a range of topics related to simulation with a special emphasis on methods that bridge disciplinary gaps between design, construction, operations, resource management, human behavior, and performance analytics across building and urban scales.
ORGANIZER: ACM / SIGSIM
Caddell Flex Space

APR

Research Symposium
SHAPE MACHINE : CREATING THE
NEXT MODELING SYSTEM
What does it mean to have a new modeling software that allows designers to specify their actions by drawing shapes rather than by writing scripts? This is the main question of this workshop on the Shape Machine, a new visual programming software developed at the Shape Computation Lab.
ORGANIZER: Shape Computation Lab
Georgia Tech College of Design, Room 214

College of Design Exhibition
PH.D. RESEARCH
EXHIBITION
